

Eagle's Camp 2017

Thank you for choosing to participate in the Eagle's Camp Program. This will be different compared to any other Boy Scout Camp you have attended.

Being an Eagle Scout is not as much about what you have done, but what you can do. When an employer sees "Eagle Scout" on your resume, it tells them that you are someone who sets goals and accomplishes them, that you have developed and demonstrated an ability to take initiative and to show leadership. Eagle's Camp is committed to maintaining the high standards of the Badge you are pursuing.

Eagle's Camp is intended to provide campers the resources of time, people, and equipment to complete a majority of the merit badge requirements in 11 of the 13 "Eagle Required" categories, however success is entirely dependent on each camper's ability to remain focused and complete the work. Each Scout will be asked at the beginning of the week to create or present a plan for his week's goals and daily to evaluate his progress.

- This is a Day Camp. Campers are expected to arrive between 7:45-8 AM & depart at 7:00 PM.
- Any Merit Badge requirement may be completed in advance of the camp, but must have been completed while registered as a Boy Scout. Please take special note of any requirement which requires counselor approval or discussion in advance, contact information below.
- Merit Badge requirements which cannot be completed at Eagle's Camp are highlighted in yellow. Any incomplete requirements will result in a "partial."
- Where requirements provide options for completion, requirements which may be completed at Eagle's Camp are highlighted in green.
- Special project opportunities schedule to complete specific requirements will be provided at least 14 days in advance of camp. (i.e. Movie Screening to complete Citizenship in the Community requirement 5, or a group meeting to complete Communications requirement 1c).
- All meals will be prepared by Scouts working on the cooking merit badge. A duty roster for meals will be distributed one week in advance of camp. Menu plans must be submitted 30 days in advance.
- Opportunities for free time activities will be regularly available. Participation in those activities is completely voluntary.
- Campers must bring an Annual Health Record with Parts A & B completed to the first day of camp.
- Lunch and dinner will be provided. Please provide a list any food allergies at least 30 days in advance of camp. Scouts may bring additional food items from home or purchase them from the trading post.
- With parental approval Scouts may bring laptops, tablets and other devices. **Wi-Fi will be available, for Merit Badge work only.**

Any questions or prior approvals for prerequisites should be submitted to karl.shelton@scouting.org. Please leave two business days for response.

Find out what its natural habitat is, why it is endangered, what is being done to preserve it, and how many individual organisms are left in the wild. Prepare a 100-word report about the organism, including a drawing. Present your report to your patrol or troop.
 2. Do research on one species that was endangered, threatened, or of special concern but that has now recovered. Find out how the organism recovered, and what its new status is. Write a 100-word report on the species and discuss it with your counselor.

Any questions or prior approvals for prerequisites should be submitted to karl.shelton@scouting.org. Please leave two business days for response.

Estimate how much space is occupied by each plant species and the type and number of nonplant species you find. Write a report that adequately discusses the biodiversity and population density of these study areas. Discuss your report with your counselor. (1 of 2 may be done at Eagle's Camp, other may be done during Eagle's Camp at home or other site of choosing.)
 - b. Make at least three visits to each of the two study areas (for a total of six visits), staying for at least 20 minutes each time, to observe the living and nonliving parts of the ecosystem. Space each visit far enough apart that there are readily apparent differences in the observations. Keep a journal that includes the differences you observe. Then, write a short report that adequately addresses your observations, including how the differences of the study areas might relate to the differences noted, and discuss this with your counselor.
 5. Using the construction project provided or a plan you create on your own, identify the items that would need to be included in an environmental impact statement for the project planned.
